ABOUT MYSELF

As a dedicated and passionate General Dentist with over a year of hands-on clinical experience, I have refined my skills in prosthodontics, oral surgery, and operative dentistry. My academic foundation from Islamabad Medical and Dental College, combined with diverse clinical exposure, has provided me with a strong command of general dentistry and patient-centered care. Leading dental camps and outreach programs, I have not only enhanced my clinical expertise but also developed a profound understanding of community-based healthcare and social responsibility. Driven by a commitment to continuous learning and innovation, I am currently seeking to advance my career through a Master's in any clinical specialty in Europe. My goal is to deepen my clinical knowledge, integrate digital dentistry advancements, and contribute to evidence-based research. I aspire to make a meaningful impact in patient care, academia, and global dental healthcare, bridging the gap between technology and modern dentistry.

WORK EXPERIENCE

 **ISLAMABAD DENTAL HOSPITAL** – ISLAMABAD, PAKISTAN

HOSPITAL DENTIST – 01/04/2024 – 31/03/2025

Provided comprehensive dental care to a diverse patient population, including diagnosis, treatment planning, and execution of various general dentistry procedures.

Performed routine and complex restorative procedures, including composite restorations, amalgam fillings, and indirect restorations.

Assisted and independently performed oral surgical procedures such as simple and surgical extractions, incision & drainage, and biopsy procedures under supervision.

Managed periodontal cases, including scaling and root planing, curettage, and periodontal maintenance therapy.

Fabricated and delivered complete and partial dentures and crown and bridge work, ensuring high-quality prosthetic rehabilitation.

Conducted emergency dental treatments, including pulpotomy, pulpectomy, and temporary restorations, managing acute pain and infections.

Assisted in research projects and clinical case discussions, enhancing evidence-based practice in dentistry.

 **SMILE CENTER DENTAL CLINIC** – ISLAMABAD, PAKISTAN

ASSOCIATE DENTIST – 26/04/2025 – CURRENT

Delivering comprehensive dental care, including restorations, RCTs, extractions, scaling, and cosmetic procedures like teeth whitening.

Diagnosing oral conditions and developing patient-centered treatment plans.

Educating patients on oral hygiene and post-treatment care.

Maintaining accurate records and ensuring strict adherence to infection control protocols.

Coordinating interdisciplinary care and participating in community dental outreach programs (school visits).
